

March 10, 2020

We are open for business and continue to monitor statements issued by the Centers for Disease Control and Prevention (CDC), James Madison University, and the Virginia Department of Health regarding coronavirus (COVID-19).

Currently, no federal restrictions are in place preventing travel in the U.S., including Virginia.

At Hotel Madison, the wellbeing of our guests and associates is always our top priority and we are closely monitoring the activity related to this issue and recommendations by federal and state agencies.

We are taking the following precautionary measures onsite:

- Housekeeping has increased cleaning and disinfection across all high-volume touchpoints throughout the building including restrooms, entrances and exits, elevators, tabletops, keypads, etc. as well as in guest rooms such as doorknobs and fixtures.
- We have increased hand sanitizer stations through the hotel.
- Additional education and awareness have been extended to all team members on increased preventative measures such as sanitizing and disinfecting products.

Among CDC's everyday prevention practices and those recommended specifically for travelers are the following:

- Travelers and others should avoid contact with sick people and clean their hands often by washing with soap and water for at least 20 seconds or using an alcohol-based hand sanitizer with 60%–95% alcohol.
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Wash your hands especially after going to the bathroom, before eating, and after blowing your nose, coughing or sneezing.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
- Clean and disinfect frequently touched objects and surfaces using a regular household cleaning spray or wipe.
- Travelers should stay home for 14 days after returning to the United States and practice social distancing.
- Stay home when you are sick.
